- Udostępnianie i śledzenie produktów na wielu platformach społecznościowych...
- System śledzenia zamówień (in progress)

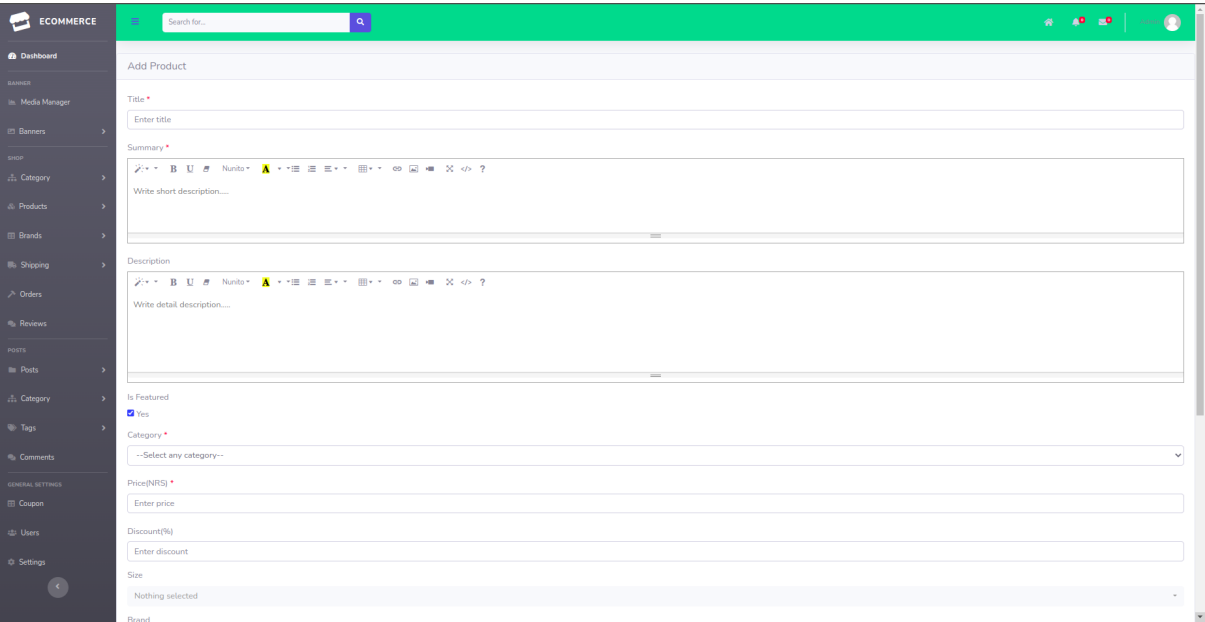

- System komentarzy z wieloma poziomami

# Funkcje Admina:

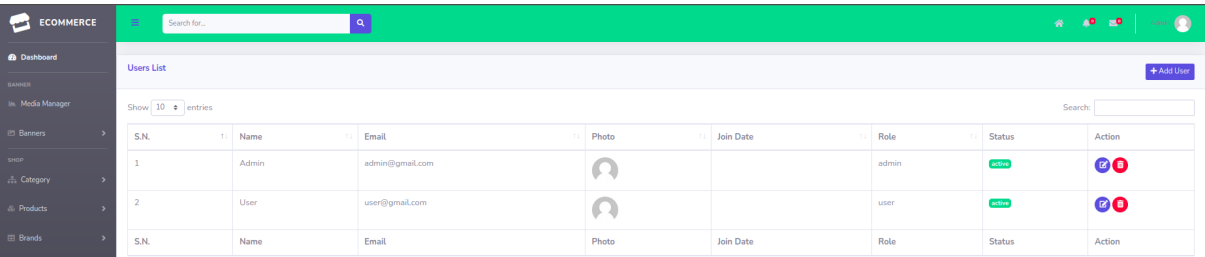

- Media manager

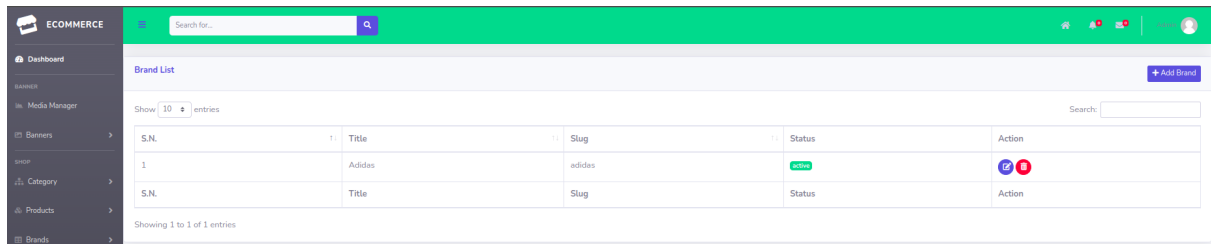

- Product manager

- Menedżer plików
- Role i uprawnienia dla administratorów

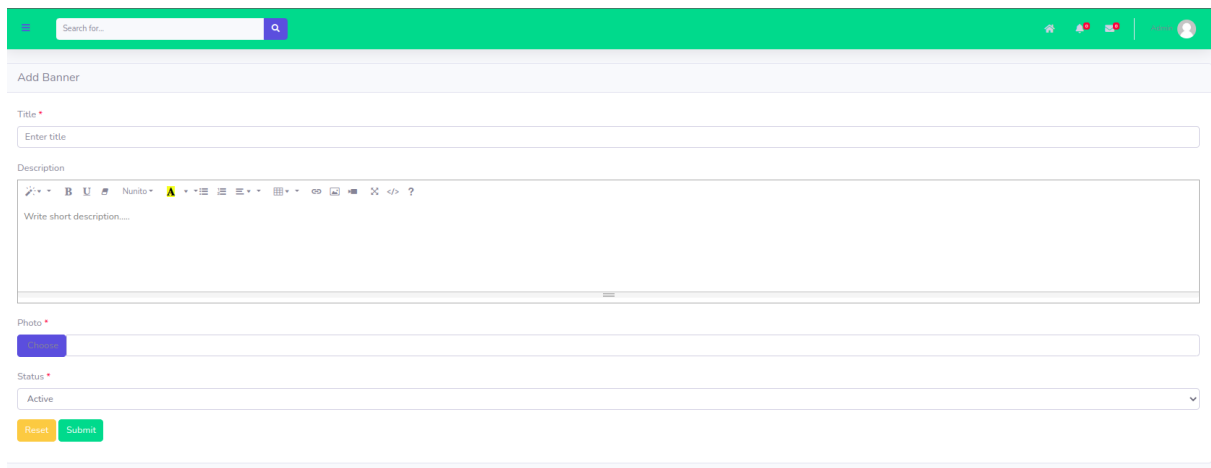

- Brand manager

The screenshot shows the 'Brand List' page in an e-commerce dashboard. The left sidebar contains navigation links: Dashboard, Banner Manager, Banners, Category, Products, and Brands. The main content area has a search bar and a table with columns: S.N., Title, Slug, Status, and Action. One entry is visible for 'Adidas' with status 'Active'. A '+ Add Brand' button is in the top right.

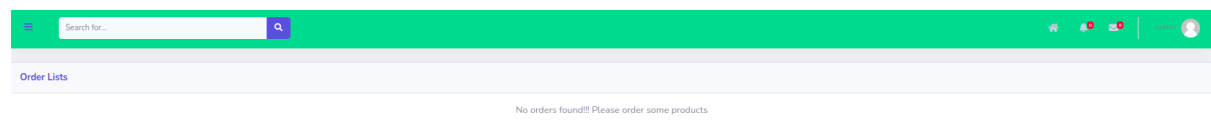

S.N.	Title	Slug	Status	Action
1	Adidas	adidas	Active	<a href="#">Edit</a> <a href="#">Delete</a>

- Banner manager

The screenshot shows the 'Add Banner' form. It includes fields for Title, Description (with a rich text editor), Photo (with a file upload button), and Status (a dropdown menu set to 'Active'). There are 'Reset' and 'Submit' buttons at the bottom.

- Order manager

The screenshot shows the 'Order Lists' page. The main content area displays the message: 'No orders found!!! Please order some products'.

- Category manager

# Baza danych:

The screenshot shows the phpMyAdmin interface for a database named 'ecommerce'. The left sidebar lists various database tables and their structure. The main area displays a table structure overview for the 'ecommerce' database, showing 22 tables. The table '22 tables' is highlighted, indicating the total number of tables in the database.
